

Red List assessment and its potential for parasite conservation

6-7 May 2024 | Hasselt University, Campus Diepenbeek

Programme

Organizing committee: Maarten Vanhove, Tiziana Gobbin, Nikol Kmentová
Volunteers: Martina Topić, Archimède Mushagalusa Mulega

Red List assessment and its potential for parasite conservation

May 6th

9:30	Maarten Vanhove	Welcome
9:35	Robert Malina	CMK presentation
10:00	Jean Hugé	Conservation social science: zooming in on coastal systems & stakeholder conflicts
10:25	Tuan Nguyen	Exploring public perception in species conservation: the World Archives of Species Perception (WASP) project
10:50	coffee break	
11:20	Derek Evans	The introduction of the non-native eel swimbladder nematode <i>Anguillicola crassus</i> from Asia and its spread through the distribution range of the European eel <i>Anguilla anguilla</i>
11:45	Wilmien Luus-Powell	The importance of parasites as part of the food web
12:10	Jos Snoeks	The Africa Museum and IUCN: twenty years of red list assessments on African freshwater fishes
12:35	lunch	
13:35	Divija Jata	IUCN Belgian Focal Point: opportunities to learn about IUCN tools, standards and commissions
14:00	Teodor Denchev	Problems and some possible solutions in red list assessments of rust and smut fungi
14:25	Matthew Gollock	How the IUCN Red List has helped prioritise conservation of anguillid eels
14:50	coffee break	
15:20	Neil Cumberlidge	The challenges of Red Listing parasites that use crustaceans as their hosts
15:45	Keith Crandall	Taxonomy, RedListing, and conservation - examples from the Decapoda
16:10	Tamara Szentivanyi	Using citizen science to better understand the occurrence and distribution of rare parasites
16:35	Armando Cruz Laufer	A network of change: predation on human disease vectors by mangrove fishes and the role of fisheries and parasitic infections
17:00	Bernard Vanheusden	Closure of the first day

May 7th

9:30	Dirk Maes	An overview of Red List assessments in Flanders (northern Belgium)
9:55	Ellen Decaestecker	The role of the microbiome in eco-evolutionary dynamics and how this may lead to insights for Ecosystem Services and One Health
10:20	Farid Dahdouh-Guebas	Red Listing of ecosystems
10:45	coffee break	
11:15	Tine Huyse and Cyril Hammoud	Diversity of snail-borne parasites and how to tackle the taxonomic impediment
11:40	Diana Di Nitto	Mangroves International Coordination Action (MICA) and the IUCN RLE for mangroves
12:05	Marliese Truter	Parasite conservation in South Africa: gaps, diversity and progress
12:17	Aspire Mudavanhu	The barcoding void: a serious impediment to trematode identification and parasite conservation
12:30	lunch	
13:30	hands-on session	
15:00	coffee break	
15:30	hands-on session	
17:00	Maarten Vanhove	Closure of the workshop
