KNOWLEDGE IN ACTION Educational professionalization

# INVITATION

## Start to Teach

Are you interested in enriching your knowledge and developing effective skills for potential teaching duties? Would you like to have more basic understanding of principles of learning that can assist yourself and others in becoming even better self-regulated, lifelong learner? If the answer is yes, register here !

The workshop consists of 2 sessions, where we will discuss learning & teaching practice by looking deep into some questions, such as:

What is your view of teaching & learning? How do we learn and what can be done to facilitate learning process? What are the ways to get others (e.g. students) motivated? How to build up a good coaching meeting?

The workshop will contain a number of sub-themes, such as *Brain & thinking; Self-regulated learning: what, why and how and Teaching as coaching*

You will be introduced to learning theories that have direct implications on your learning & potential teaching practice. In addition, you will be supported to develop the following skills:

- Listen actively and ask powerful questions
- Support, appreciate and empower people
- Give and ask feedback

**Your expert-guide:**

dr. Lai Jiang
